

Pringle Richards Sharratt are currently working on a project, employed by Fusion Lifestyle, to refurbish three swimming pools and leisure centres for the London Borough of Hounslow. The existing buildings are diverse in architectural style, and generally in very poor condition, having suffered from a lack of maintenance over the last 10-15 years.

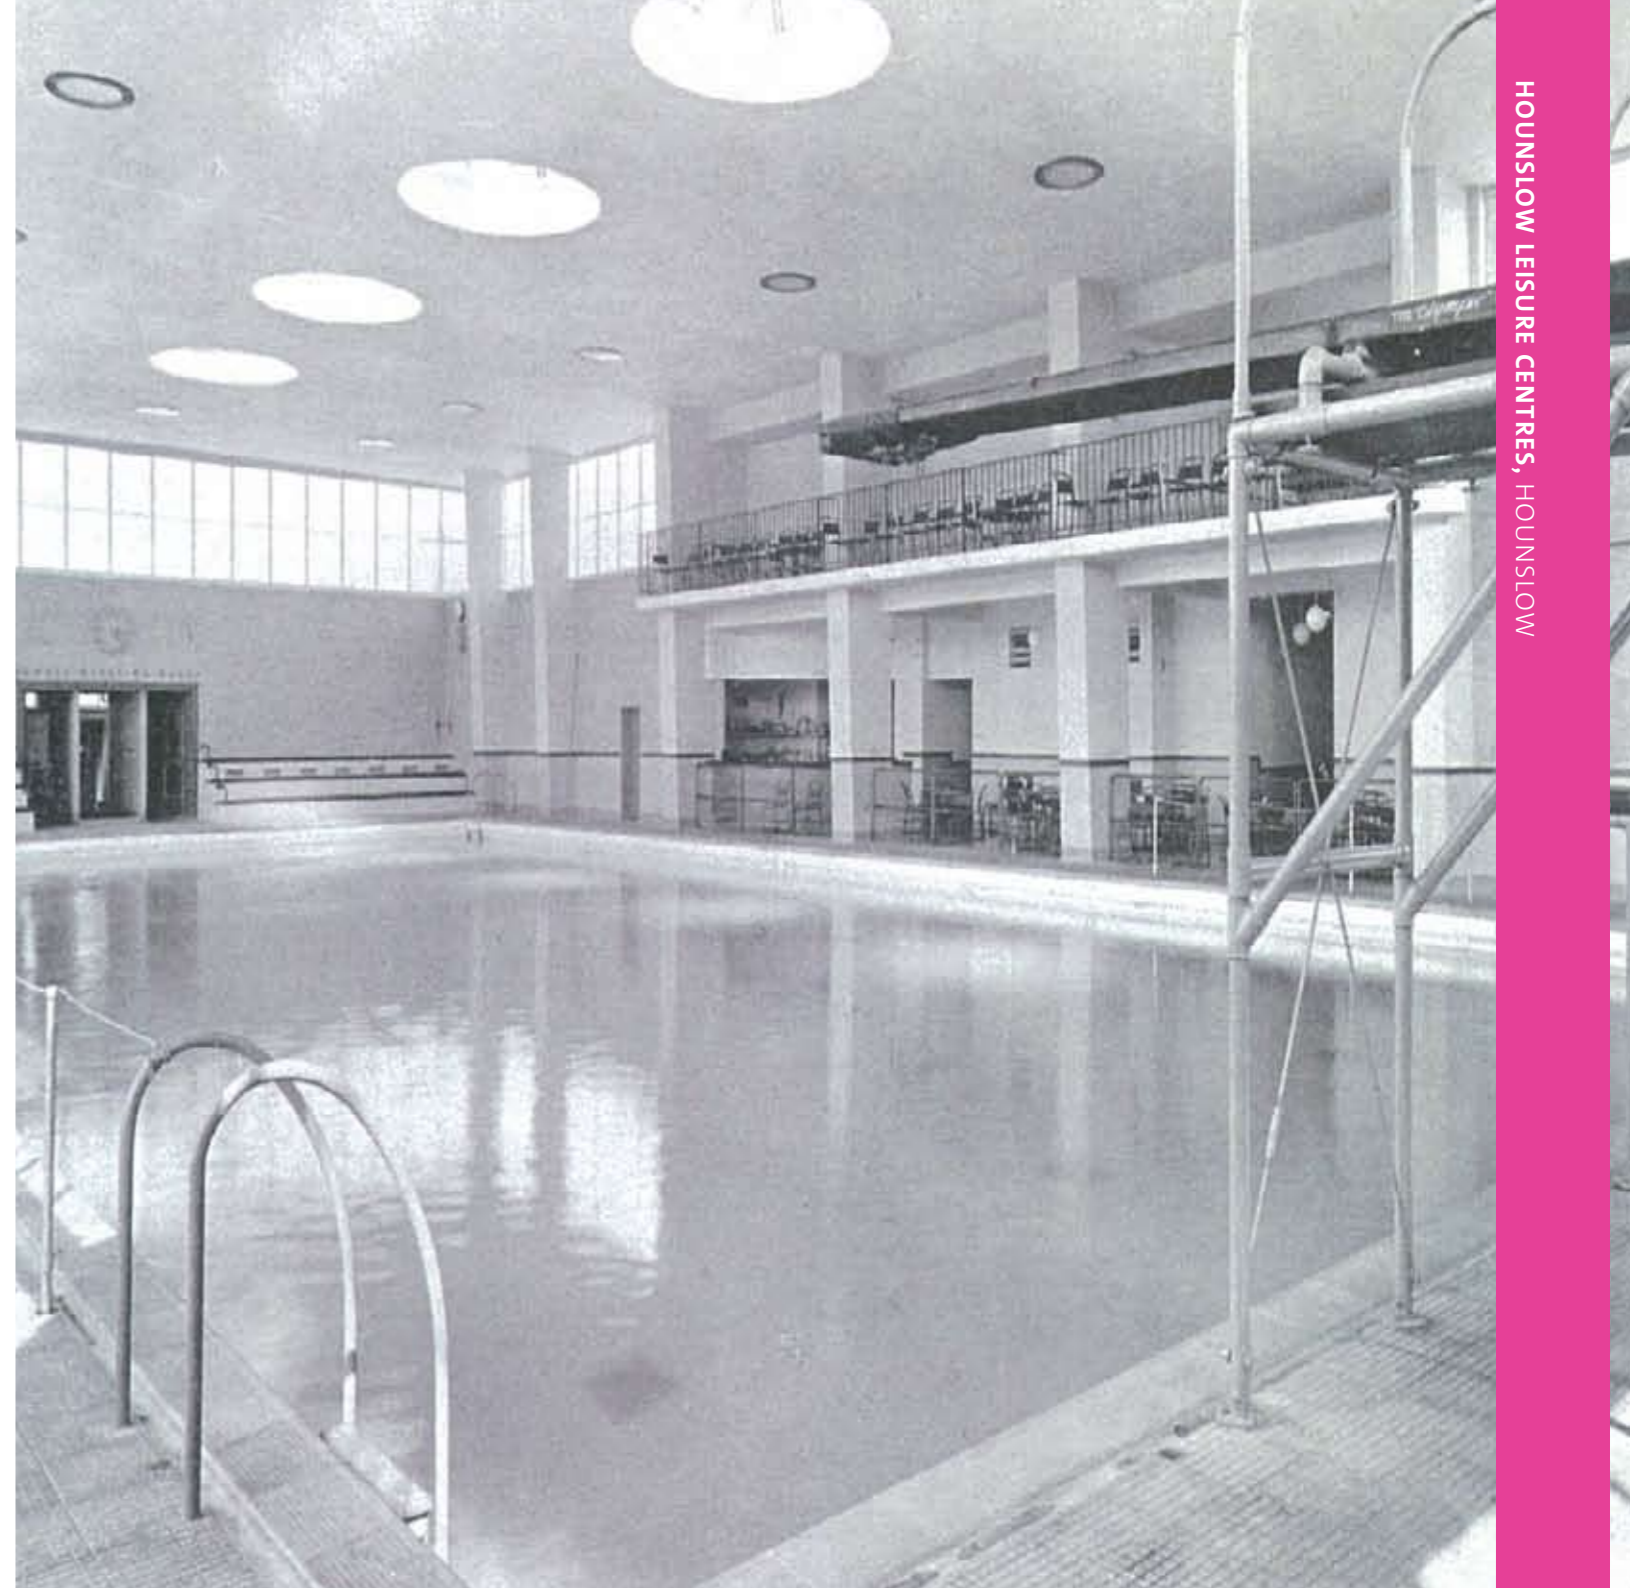

The leisure centres are located in Feltham, Isleworth and Chiswick.

The project is extremely challenging as it requires a fundamental refurbishment and significant extensions of all the buildings, expanding the leisure facilities where possible, with new gyms, studios, new wet and dry changing facilities, health suites, community rooms, crèche and soft play facilities, cafes and in the case of Feltham integrating a new library, and with Isleworth linking the swimming pool to the existing adjacent library. The building facilities have to remain open during the works, and must be constructed during a 9 month period. These constraints must not affect the desired final locations of the various facilities.

The projects are currently at Stage D, and have a total value of over £15 million.
